

**AUGUST
14-16, 2026**

TEXAS SOCIETY OF PLASTIC SURGEONS

BOOT CAMP '26

UT HEALTH SAN ANTONIO LONG SCHOOL OF MEDICINE

INSPIRE, EDUCATE, INNOVATE & CONNECT

WELCOME!

The Texas Society of Plastic Surgeons (TSPS)
welcomes you to
TSPS BOOT CAMP '26
at UT Health San Antonio
Long School of Medicine
August 14-16, 2026.

EVENT PROFILE

TSPS is excited to present Boot Camp '26 at UT Health San Antonio Long School of Medicine, in collaboration with the American Society of Plastic Surgeons (ASPS) and Plastic Surgery programs and faculty across Texas.

Originally created by ASPS in 2018, Boot Camp helps Integrated and Independent residents transition into Plastic Surgery training through focused exposure to essential clinical content and surgical education.

Following the success of our inaugural 2025 program, Boot Camp returns to advance education, community and mentorship among the next generation of plastic surgeons. Distinguished academic leaders—including program directors and chairs—will provide instruction and foster meaningful connections across Texas.

DIRECTIONS:

Enter the South Long Campus of UT Health San Antonio School of Medicine (7703 Floyd Curl Drive San Antonio, TX 78229) through the main gate off Floyd Curl Drive. Park in Lot 6 (circled in red) to the right of the main entrance.

The daily rate for parking is \$8.

Boot Camp '26 will be located in the ALTC building (circled in green) and the Medical School (circled in yellow).

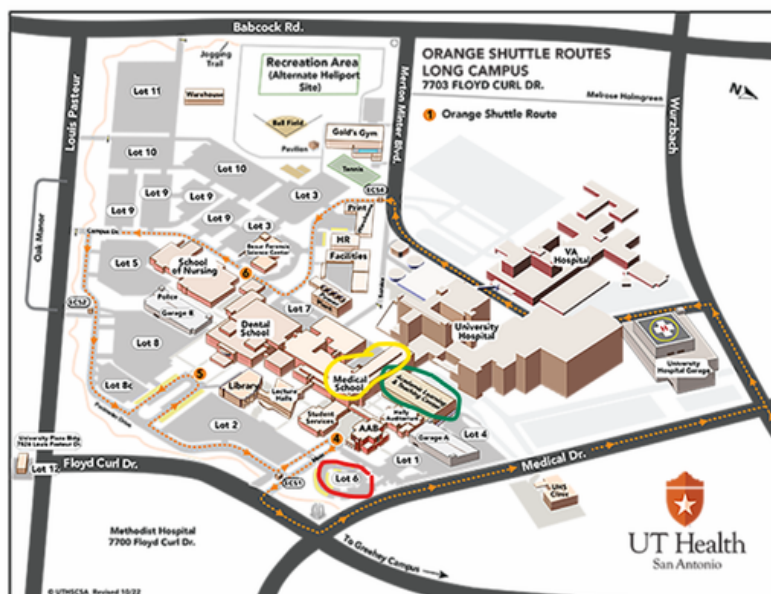

LOCATION PROFILE

Boot Camp '26 will be held at the UT Health San Antonio Long School of Medicine, offering a dynamic learning experience across multiple state-of-the-art facilities.

Participants will rotate between the Surgical Simulation Lab for hands-on procedural training, the Johnson Center for small group learning and mentorship, and the Academic, Learning, and Teaching Center (ALTC building) for interactive lectures and workshops—providing the perfect environment to develop skills, connect with peers, and engage with leaders in plastic surgery.

**UT Health San Antonio Long School of Medicine
7703 Floyd Curl, San Antonio, TX 78229**

South Long Campus

ATTENDEES

TSPS Boot Camp '26 will be attended by approximately 30 residents with 10-12 faculty leaders from various programs across Texas.

OBJECTIVES

TSPS Boot Camp '26 aims to offer standardized and timely exposure to crucial clinical content in Plastic Surgery, ensuring accountability for the comprehensive education of our trainees and maintaining leadership in adult surgical education. Its primary objective is to facilitate the seamless transition of both Integrated and Independent residents into Plastic Surgery training.

PROGRAM DETAILS

TSPS Boot Camp '26 will host two days of learning and collaboration.

Friday will host a welcome reception and dinner. Saturday will be a full day of education and an evening dinner off-site. Sunday will conclude after a half-day program.

TSPS Boot Camp '26 offers breakout sessions in topics at the forefront of plastic surgery. Residents experience a wide variety of clinical areas including wound healing, burn management, cleft and craniofacial reconstruction, and microsurgery.

Additionally, residents are introduced to aesthetic procedures such as botulinum toxin injections, filler injections, and breast implant options.

Attendees acquire the foundational knowledge necessary to advance into more specialized areas of plastic surgery. Through enhanced resident training, **Boot Camp '26** contributes to the delivery of high-quality patient care.

Faculty: Prominent academic faculty from across Texas are invited to lead **TSPS Boot Camp '26**.

These distinguished faculty surgeons are comprised of Residency Program Directors, as well as Department Chairs and Division Chiefs - each genuinely engaged in providing the best possible training for the next generation of plastic and reconstructive surgeons. Residents will have the opportunity to learn in a state-of-the-art microsurgery lab with expert faculty, which is a truly unique component of **TSPS Boot Camp '26**!
